

Principles of Management (MGMT 142)

Credit Hour: 3

Teaching Mode: In-Person

Schedule: Monday to Friday (2:00 PM – 3:50 PM)

Instructor: Sheikh Attique Ur Rehman

Course Description:

Principles of Management is a rich, interactive learning experience designed to give students an overarching view of management and the basic intellectual tools and aptitudes they need to meet today's organizational challenges. This basic management course will investigate the different functions of management, namely planning, organizing, leading and controlling. In tandem with these, the course will explore issues such as organization structure, technology, innovation, ethics, corporate responsibility, competitive environment, and customer-focus influence managerial decision making.
