# LAHORE UNIVERSITY OF MANAGEMENT SCIENCES (LUMS)

Lahore, the cultural capital and the heart of Pakistan, is home to the Lahore University of Management Sciences (LUMS). With a historical legacy of more than a thousand years, the city has produced countless scholars, poets, writers, intellectuals and scientists.

Established in 1985, LUMS is ranked as the number 1 University in Pakistan, among top 50 in Asia and among the top 250 universities in the world, according to a new ranking of the QS Graduate Employability Rankings 2018.

LUMS advocates a culture of academic excellence, tolerance, research, diversity and freedom of thought. The University has played a key role in setting high standards of academics and producing professionals who can compete globally.

# 02 HISTORY

LUMS is a unique University with a reputation for outstanding achievements. These are reflected in the intellectual accomplishments of its students, as well as the originality, commitment and research of its faculty. Over the years the University has established a reputation for academic excellence and has received great acclaim for its programmes from within and outside the country.

Sponsors from the country's major private and public sector corporations established LUMS. These sponsors were aware of the need for a national

university, which would provide rigorous academic and intellectual education, at par with leading universities around the world.

The last three decades have seen an accelerated rate of development in almost every direction. Keeping in mind the national and international needs and trends, education has been kept current and relevant. As new areas of study and research emerged, so too have relevant university departments, schools and research centres, and with them new teaching courses.

# 03 THE CITY

Situated on the banks of the River Ravi, Lahore, Pakistan's second largest city is the historical, cultural and educational capital of the country. The city has been the cultural capital of the Punjab province for centuries and has seen the rise and fall of many kings and emperors from different cultures and backgrounds. Lahore has absorbed these diverse influences achieving a unique sense of history.

The city is famous for its historical landmarks. The Lahore Fort, Badshahi Mosque and Gurdawara are a testament to the Mughal and Sikh legacy of the city. The Mall Road is famed for its colonial buildings from the British Raj, while the more modern areas of Gulberg and Defence feature shopping malls, cinemas, restaurants and more. Other places of

interest are the mausoleum of Emperor Jehangir, Pearl and Golden Mosques, the tomb of Ranjit Singh and the Wazir Khan Mosque. Lahore Museum, which features in Rudyard Kipling's *Kim*, is among the most noted in the East. The old walled city, with its narrow cobble-stoned streets and old houses, is a museum in itself.

Lahore is also the centre of higher education in Pakistan. The University of the Punjab, Government College, Kinnaird College for Women and King Edward Medical College are some of the oldest and most prestigious schools in the country. Other medical schools, arts colleges and more can be found dotting the city landscape.

The people of Lahore like to claim, "One who has not seen Lahore has not lived." Lahoris are friendly, generous and hospitable, and their zest for life and food is well known. Accordingly, the city is famed for its wide variety and styles of foods. Food streets at Gawalmandi and Purani Anarkali are two good junctions for traditional food dishes, while restaurants and cafes offering continental as well as local dishes, can be found at M. M. Alam Road, Gulberg and at Y-Block, Defence Housing Authority.

Lahore has a host of social activities on-going all year round, which include arts and crafts exhibitions, film and literature festivals, music concerts and much more. Sports enthusiasts can watch hockey or cricket matches at the Gaddafi Stadium. Bowling alleys and paintball arenas can also be found around the city. Clubs such as the Gymkhana and the Royal Palm Golf and Country Club, provide opportunities for recreation in the form of sports facilities, cafes and restaurants.

# 04 NOBEL LAUREATES OF LAHORE

**Har Gobind Khorana (1922 - 2011)**

- Studied at the University of the Punjab, Lahore during 1940's
- Nobel Prize in Physiology or Medicine 1968 for work on genetic code

# 05 THE UNIVERSITY

LUMS houses five schools; the Suleman Dawood School of Business; the Mushtaq Ahmad Gurmani School of Humanities and Social Sciences; the Syed Babar Ali School of Science and Engineering, the Shaikh Ahmad Hassan School of Law and the School of Education, offering a diverse range of undergraduate and graduate degrees.

The academic programmes offered at LUMS include undergraduate degrees in Biology, Chemistry, Computer Science, Chemical Engineering, Electrical Engineering, Mathematics, Physics, Economics, Economics and Political Science, Economics and Mathematics, Political Science, Anthropology and Sociology, English, Accounting and Finance, History, Management Science and a minor in Education. Also offered is the unique BA-LL.B Programme for those who want to major in Law. Courses are taught in English and students have the freedom to explore their interests in a variety of subjects before choosing their majors.

At the graduate level, programmes offered include

the MBA, Executive MBA, MS Chemistry, MS Biology, MS Physics, MS Computer Science, MS Economics, MS Mathematics and MS Electrical Engineering. An MPhil Education Leadership and Management is offered by the School of Education. Doctoral programmes are offered in Management, Mathematics, Physics, Chemistry, Biology, Electrical Engineering and Computer Science.

LUMS also offers a wide array of executive courses through the Rausing Executive Development Centre, which was established with support from the Rausing family of Sweden. Since its inception, the centre has maintained its position as one of the best institutes offering executive education in Pakistan.

In addition to the academic programmes, the University conducts research funded by various multilateral agencies, industry and government. Active research keeps the faculty in touch with the current business environment and enables them to gauge future directions. Research initiatives are also conducted under several research centres.

06  
FACULTY  
AND RESEARCH  
EXCELLENCE

The excellent faculty at LUMS includes 204 PhDs from some of the world's best institutions, such as Cambridge, Oxford, MIT, Berkeley, Harvard and Stanford, among others. Regular involvement with international conferences and publications keeps LUMS faculty abreast of global education trends. Moreover, eminent visiting scholars further diversify and enrich the learning experience. LUMS aspires to be a leading think-tank known internationally not only for the dissemination of knowledge, but also for

the creation of new ideas and innovations that would have a positive impact on society. The University's ambitious attitude towards research means that it is constantly investing in world-class facilities. The number of grants generated in research funding each year, highlights the importance of research. The University is also committed to ensuring that academic research and learning are not two separate bodies. The research conducted guides learning and ensures that it is up-to-date and relevant.

# 07 CAMPUS FACILITIES

The University campus, spread over 100 acres, includes excellent on-campus accommodation, world-class sports facilities, a state-of-the-art library, a variety of dining facilities and much more. Students also benefit from a diverse student body. They have the opportunity to meet people from all over the country and overseas, and learn about other cultures. There is an incredible atmosphere on campus, coupled with convenience and safety for all students.

All facilities are a short walk from each other, ensuring that students have easy access to

everything they need. The campus is adjacent to the Defence Housing Authority, a well-developed suburb of Lahore with shops, restaurants, hospitals and other facilities. LUMS also offers separate on-campus accommodation for male and female students. The residential colleges comprise of twelve residential buildings. Each hostel block offers a friendly and secure environment to its inhabitants, and is equipped with a wide range of facilities including Wi-Fi, TV lounges, game rooms, laundry rooms, kitchens and easy access to dining facilities. Dedicated hostel staff is accessible to students for help at all times.
