- Effect of learning environment on student performance and emotional wellbeing
- Enhancing literacy of elementary children through reading interventions

# THE NATIONAL HISTORY MUSEUM

The National History Museum (NHM) is the first-of-its-kind museum in the country, featuring state-of-the-art digital exhibits that ensure an immersive and interactive experience. NHM is a project curated and managed by The Citizens Archive of Pakistan (CAP). CAP is a non-profit organization dedicated to cultural and historic preservation operating in Karachi and Lahore, with broad outreach across Pakistan.

The National History Museum (NHM) is an attempt to create an alternative learning space for both young and old, and honor the rich heritage of this nation. The museum presents personal and emotional narratives of people in the form of animations, 3D videos, images, and video clips, and brings first-hand accounts of the struggle faced by our forefathers in creating this country. The museum is a unique and pioneering initiative set in Greater Iqbal Park, next to Minar-e-Pakistan, allowing people to explore and engage with Pakistan's diverse history and culture.
